C	Leveling bracket		2pcs		
D	Green rubber plug		6pcs		
E	Screw		6pcs		
F	Stainless steel cover		2pcs		

## Wall Preparation

- The typical dimensions shown will result in vanity cabinet height of 32-3/4"(831mm). Depending on the sinks selected, the total height will vary from 33-1/2"(850mm) 35-1/4"(895mm). If an alternate height is desired, adjust the rough-in and backing material heights using the dimensions provided.

## STEP 1

Draw a punched position on the wall with a pencil.

Tip:

1. The suggestion height of the cabinet is 32-11/16"(830mm)-not including the basin.
2. The suggestion height of the upper hole is 30-5/16"(770mm).
3. The suggestion distance between the upper hole to the lower hole is 9-13/16"(250mm).

## STEP 2

Drill the holes with suitable drill-bits base on different condition of the wall.

## STEP 3

Use a hammer to knock the white expansion rubber plug into the upper hole, and knock the green rubber plug into the three lower hole, align the hole in the wall and lock the leveling bracket to the wall with screws.

**STEP 4**

Hang the accessories behind the cabinet on the leveling bracket. (As the picture shows).

**STEP 5**

Secure the vanity onto the wall with screws.

**STEP 6**

Install sink top with silicone and finish.
